Ronit Raphael, Professor Meir Shinitzky and Dr. Raphael Gumener P.D. have combined their knowledge, determination and expertise to form L.RAPHAEL. Together, they have spent the last twenty years helping over 100,000 clients to look and feel their personal best.

Mrs. Ronit Raphael

Mrs. Ronit Raphael is the inspiration for the L.RAPHAEL brand. Her interest in skin care grew from personal experience. When she was 18, she suffered from minor acne. She tried a chemical peel that seriously damaged her skin and left her with second degree burns. After her doctors could not offer any solutions, she took it upon herself to find an effective means to improve her skin condition. She spent the next few years meeting with scientists and dermatologists the world over to learn everything she could about skin care. This quest became the driving force to team up with Professor Meir Shinitzky and Doctor Raphael Gumener P.D. to form L.RAPHAEL.

Professor Meir Shinitzky

Professor Meir Shinitzky is L.RAPHAEL's Chief Scientist and head of Research and Development. In this role, he is responsible for seeking out the most effective ingredients and delivery systems to ensure that L.RAPHAEL remains at the forefront of skin treatment technology. Professor Shinitzky has a doctorate degree in Physics and Chemistry. He has spent most of his career at the world-famous Weizmann Institute of Science and is a pioneer in the field of cellular membrane research.

Doctor Raphael Gumener Privat Docent

Dr. Gumener P.D. is L.RAPHAEL's Chief Medical Officer. In this role, he is responsible for ensuring the safety and efficacy of all L.RAPHAEL's medical aesthetic treatments. Dr. Gumener is a world-renowned specialist in the field of medical aesthetics. He formerly served as the President of the Swiss Society of Plastic, Reconstructive and Aesthetic Surgery.
